

PUSHPAK UMALE

Associate Consultant | Data Analyst & BI Specialist

Pune, India | +91-7798688120 | pushpakumale.careerinfo@gmail.com | linkedin.com/in/pushpakumale

PROFESSIONAL SUMMARY

Detail-oriented Associate Consultant and Data Analyst with 4 years of experience delivering end-to-end SQL- and Power BI-driven analytics for global investment banking and financial services clients. Proven track record in automating enterprise MIS reporting, KPI framework design, variance and trend analysis, and database query optimization. Demonstrated ability to translate ambiguous executive requirements into structured visual dashboards that accelerate decision-making, reduce manual operational overhead, and enforce data governance standards.

TECHNICAL & ANALYTICAL SKILLS

Database & Querying: SQL (T-SQL, PostgreSQL), Complex Joins, Subqueries, Views, Indexing, Query Optimization, Stored Procedures

BI & Data Visualization: Power BI (Power Query, Power Pivot, DAX Modeling), Executive Dashboards, KPI Scorecards, Data Storytelling

Reporting & Automation: Management Information Systems (MIS), Advanced Excel (Pivot Tables, Power Query, Macros), Python (Pandas, Automation Scripts)

Financial & Business Analysis: Variance Analysis, Trend Forecasting, Portfolio Analytics, Financial Performance Reporting, Risk Assessment

Data Governance & Tools: Data Cleansing, Data Reconciliation & Validation, ETL Workflows, Git, File Formats (CSV, XLSX, JSON, XML)

PROFESSIONAL EXPERIENCE

Associate Consultant – Analytics & Financial Services

Capgemini India | Pune, India

Jun 2022 – Present

- Executive MIS Reporting:** Delivered monthly and quarterly financial and operational performance analytics directly supporting senior leadership reviews across investment banking portfolios.
- Process Automation:** Automated and standardized end-to-end MIS workflows, reducing manual report preparation effort by 40–50% and eliminating recurring human calculation errors.
- Data Cleansing & Validation:** Architected robust reconciliation checks, cleansing routines, and validation rules across incoming feeds, elevating reporting accuracy by 25%.
- Strategic Decision Acceleration:** Engineered dynamic, insight-driven dashboards tracking revenue movements, cost centers, and performance variances, improving leadership decision speed by 35%.
- SQL & Model Optimization:** Redesigned data models, table structures, and T-SQL queries/views, achieving a 30% reduction in dashboard refresh times and data warehouse pipeline processing delays.
- Trend & Variance Analysis:** Conducted rigorous historical trend and variance analysis to identify operational bottlenecks, cost overruns, and emerging portfolio risk factors.
- Cross-Functional Delivery:** Partnered with business leaders and non-technical stakeholders to translate ambiguous commercial requirements into formal KPI definitions, technical specs, and executive decks under tight delivery timelines.

KEY PROJECTS & CASE STUDIES

Executive Financial Performance Dashboard (Power BI) | Financial Analytics & Visualization

- Architected an enterprise Power BI reporting solution monitoring critical KPIs, revenue trends, expense structures, and budget vs. actual variances.
- Engineered DAX measures, customized data models, and drill-through matrices enabling senior executives to pinpoint underlying risk drivers across business units.
- Integrated interactive visual storytelling to transform complex transactional data into board-level strategic summaries on schedule.

SQL Data Cleansing & Analytical Warehouse Pipeline | Data Engineering & Cleansing

- Designed and implemented production-grade SQL views, indexing schemes, and transformation logic consolidating transactional data from diverse raw feeds into analysis-ready data marts.
- Built automated audit queries and data integrity validation checks, establishing high reliability and traceability for regulatory and downstream reporting.

Enterprise MIS Reporting & Workflow Automation (Excel & Python) | MIS & Process Optimization

- Developed macro- and Power Query-enabled MIS reporting workbooks, slashing regular report compilation cycles by up to 90%.
- Streamlined recurring data ingestion from multi-format files (CSV, JSON, XLSX), providing structured summaries for tactical decision-making.

EDUCATION & ADDITIONAL INFORMATION

Bachelor of Technology (B.Tech / B.E.) – Electrical Engineering

GH Rasoni College of Engineering, Nagpur | CGPA: 9.45 / 10.0

Graduated: 2022

Languages: English (Professional), Hindi (Fluent), Marathi (Native)
